

✈️ **FRA Deals — Frankfurt Flight Tracker**

Tracks live cheap flights from Frankfurt (FRA) to destinations worldwide using Google Flights via SerpApi.

Deploy to Railway (free, works from phone)

1. Go to **github.com** → create a free account
2. Create a **new repository** called `fra-deals`
3. Upload all these files (drag & drop on GitHub mobile)
4. Go to **railway.app** → sign up with your GitHub
5. Click **New Project → Deploy from GitHub repo** → pick `fra-deals`
6. Go to your project → **Variables** tab → add:
 - **Key:** `SERPAPI_KEY`
 - **Value:** `bc155c1555c1080020dc254fa56b2b75d73ef3b5bcc8feb072830b8cf7401610`
7. Railway auto-deploys — you get a live URL like `fra-deals.up.railway.app`

That's it! Open that URL on any phone or browser anywhere.
